Save Net Neutrality

5/8/2017

I'm writing to voice my strong support for maintaining Title II as the relevant regulatory framework for Internet Service Providers. Net Neutrality is essential for a free and open business, entertainment, and communications environment. To eviscerate or withdraw existing protective regulations would favor a few huge and wealthy corporations over the citizenry at large, and over small businesses or start-ups; equal access to the internet is fundamental to the vitality of our democracy.

Preserve Net Neutrality!

Larry Haydu
